GrowthHub

Proposal for colleges & schools

Fill every intake.

Reach the right students and win parents' trust with admission campaigns, campus stories and 24/7 answers to every inquiry.

Prepared for: _____

Be seen. Be chosen. · Marketing Proposal 2026

01 · ABOUT GROWTHHUB

20+ years of tech. Now growing your brand.

GrowthHub is a digital marketing agency from GlobalyHub, based in Lalitpur, Nepal. We combine more than 20 years of industry experience building technology for businesses with AI and a local creative team, helping colleges, +2 schools, private schools and institutes build strong brands and reach more of the right customers.

20+
years of industry experience

5
content pieces every week

3
platforms: Instagram, Facebook, TikTok

24/7
AI auto-replies to your customers

02 · WHY WE'RE DIFFERENT

Marketing, built like a product.

AI-first, human-finished

AI helps us design and produce content fast, which keeps prices low. Our designers and strategists review every piece so it looks and sounds like you.

Built by product people

Our team builds software used by restaurants, education agencies and institutions, and we bring that product and automation thinking to your marketing.

Made for Nepal

Nepali and English captions, festival calendars (Dashain, Tihar, New Year), local audiences, and every price in rupees.

Honest, published pricing

No hidden fees, no confusing retainers. You see every price up front, and we focus on inquiries, bookings and sales, not just likes.

The team that builds products.

Before GrowthHub, our team built software used across Nepal and beyond. That same product thinking, and the AI behind it, now powers your marketing.

GlobalyAI
globalyai.com

A conversion chatbot for institutions' websites that answers applicants' questions and hands admissions teams the full conversation.

Orderlay
orderlay.app

Restaurant management system in Nepal: QR ordering, KOT printing, table management and real-time sales reports.

Agentcis
agentcis.com

CRM software for education agents and migration consultants to run their business efficiently.

Globaly
globalyapp.com

An AI education discovery platform, launching soon.

Appliflo
appliflo.com

Part of our product family.

04 · THE CHALLENGE

What’s holding colleges & schools back.

1

Admission season crunch

Everyone advertises at once, and your message gets lost.

2

Parents need proof

Families compare results, facilities and reputation before they choose.

3

Inquiries after hours

Students message at night; the office opens at 10.

The good news: every one of these can be fixed with consistent content, the right audience and fast replies. That’s exactly what we do.

Marketing made for your business.

- Admission & intake campaign creatives
- Campus-life and faculty reels
- Targeted ads to students & parents
- Program pages & admission website
- Auto-replies for fees, forms & counselling

06 · WHAT'S INCLUDED

Your content, every single week.

Most popular

Monthly Content Plan

₹28,000/month

Planned around your offers, seasons and festivals.
Designed with AI, finished by our team, approved by you.

Monthly Content Plan

12 static posts · 4 carousels · 4 videos

₹28,000 /month

Good to know

- Ad budgets are paid to the platforms and are separate from our fees. Management fee: minimum ₹1,000 up to ₹5,000; 20% of the budget above ₹5,000.
- Hosting (₹10,000) and domain (₹2,000) are billed yearly.
- Monthly plans are billed in advance. Custom plans are available.
- Prices valid for 2026; your signed proposal applies.

Four steps to growth.

01
Free audit
We review your pages, photos and Google listing and show you where customers slip away.

02
Plan
A monthly content plan built around your services, offers, seasons and festivals.

03
Create & post
AI makes it fast, our team makes it on-brand, and you approve everything before it goes live.

04
Boost & grow
We put ad money behind what works, and automation answers every message.

Your typical first month.

STEP 1

Discovery & audit

We learn your goals and customers, and share what we found on your pages.

STEP 2

Onboarding

Page access via partner roles (not passwords), brand assets, offers and a monthly content calendar.

STEP 3

Shoot & first content

We capture photos and videos at your location and prepare the first posts for approval.

EVERY WEEK

Go live

3 static posts, 1 carousel and 1 video published, with boosts and auto-replies running.

EVERY MONTH

Review & improve

We review what worked, adjust the plan and agree next month's priorities with you.
